EXPERIENCE

<div>LAKUUU INDONESIA</div> <div>UI UX Designer (Remote)</div> <div>March 2021 To September 2024</div>	<div>Lakuuu Indonesia is a Website &amp; E-Commerce Builder providing solutions for SMEs. As a UI/UX Designer, I leverage <b>competitive analysis</b> and <b>domain knowledge</b> to craft designs that align with user needs while highlighting key advantages over competitors.</div>
<div>LANGIT STUDIO</div> <div>UI/UX Designer, Web Developer</div> <div>September 2019 To September 2020</div>	<div>Langit Studio is a Software House located in Indonesia. I specialize as a UI/UX Designer and Web Developer to create web-based applications. In addition, I conducted a small-scale <b>analysis</b> and <b>research</b> at Langit Studio to enhance my understanding of the company's workflow and client needs, contributing to the development of more user-centered solutions.</div>

PROJECTS

🔥Latest Project

DAILY HEALTH JOURNALLING APP

UI UX Designer (Lakuuu Indonesia)

August 2024

Daily Health Journal is a personal app for tracking daily health, including blood pressure, medication intake, and physical activity. Designed with a **client-centric** focus, it was developed using competitive analysis to ensure the app meets user needs while aligning with the client's vision of a simple and organized health tracking tool.

SISTEM INFORMASI KPR

UI UX Designer & Web Developer (Laingt Studio)

Confidential Project

March 2019 To August 2020

This project involves creating a web application for an information system at a property company. The project was conducted using research methods, including **interviews**, to gather insights from stakeholders and ensure the system meets the company's operational needs.
